

COOL, SENSIBLE LUXURY FOR YOUR STATESMAN, HQ HOLDEN & MONARO

A GM AIR CONDITIONER MAKES SUMMER MOTORING 'A BREEZE'!

Hot outside? Forget it. Step inside your Statesman, HQ Holden or Monaro and be as cool as you wish. Make your own weather — with a genuine GM air conditioner, equipped with world-renowned Frigidaire compressor. Continually recirculates cool 'clean conditioned' air... removes excess moisture and irritating dust and pollen. And with all windows closed, there's little air-and-road noise. You drive and arrive, feeling fresh and relaxed! Look into a GM air conditioner today! Two types — Integrated factory unit or Dealer-installed accessory.

Small items will be sent post free with next copy of the magazine, otherwise please add postage.

Hi all,

Our 25th Anniversary Holden Day at the Ecclesbourne Valley Railway in Wirksworth went off well. The weather was a bit dull but not a drop of rain interfered with the day. Everyone was able to take a trip on the steam railway which was followed by an excellent buffet lunch including a piece of home-made anniversary cake. All our thanks must go Guy, our Secretary for arranging the whole event.

Now that summer has finally arrived I am sure you are managing to get around to a few more events. If you would like to send me some pictures I will feature them in the next edition of our magazine. You might even make the cover!

Regards

Ken

**South Carolina Ponder Moving To License Plates That Notify
Police If Stolen Or Expired**

South Carolina Department of Motor Vehicles is considering doing away with stamped metal plates and replacing them with new, electronic tags that would be linked to a central computer database.

The new plates use "electronic paper" technology that can hold an image without power for up to 10 years. A clear coating on the plates could also generate small amounts of electricity, which would be required to change the image, from sunlight or even vibrations generated when a car is in motion.

The new plates would be linked to a central network and the image could be changed at the push of a button to alert law enforcement when the DMV receives notice that a car is stolen, uninsured, has expired tags or an when an operator's license has been revoked. The DMV is quick to add that, while they would be able to receive signals, the electronic plates will not mount transmitters and cannot, therefore, be used to track a vehicle.
